### DETAILED ACTION

1. In view of amendment filed July 28, 2009, claims 13, 17, 19 have been cancelled. Claims 1-12, 14-16, 18, 20 are pending.

2. In view of the argument and evidences filed July 28, 2009, the rejection of claims 1-12, 14-16, 18, 20 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Welborn, Jr. (US 5,124,418) is withdrawn, Since applicants have successfully demonstrated the criticality of the claimed polydispersity ranges of the high molecular weight portion of the bimodal polyethylenes being claimed. The range of high molecular weight portion being claimed is supported by applicants' specification (page 42, Table 1).

### ***Double Patenting***

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 1796

4. Claims 1-12, 14-16, 18, 20 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15 of copending Application No. 10/772,823. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-12, 14-16, 18, 20 of instant application and claims 1-15 of copending Application No. 10/772,823 are related a genus and its species.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicant's arguments filed July 28, 2009 have been fully considered but they are not persuasive. Applicants agree to file a terminal disclaimer when the instant application is found allowable. In view of the lack of argument on the rationale used by the examiner for the instant ODP rejection, the examiner has a reasonable basis to believe that the ODP rejection is proper. Therefore, claims 1-12, 14-16, 18, and 20 stands ODP rejected until a terminal disclaimer is filed.

#### ***Allowable Subject Matter***

5. Claims 1-12, 14-16, 18, 20 are allowable if the ODP rejection is overcome or by the submission of a terminal disclaimer.

#### ***Conclusion***

6. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
